

# DAB AT THE BEVERLY HILLS COMPOUND RESIDENTIAL COMPLEX, LUSAIL (QATAR)

## **WHERE:**

**Lusail City** is located 20 km north of the Qatari capital, Doha, and is divided into 19 districts offering a variety of services, including commercial and financial centres (designed by Foster and Partners), 25,000 residential units, 36 schools, 2 golf courses, a hospital, beaches, and marinas with berths for more than 1,800 boats.

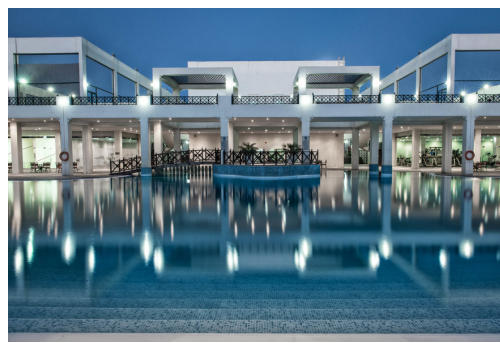

The "City of the Future" also has a light rail network, a water taxi system and a pedestrian network integrated with green spaces. The green area is covering 30% of the total surface.

## **WHEN:**

April 2017

## **CUSTOMER:**

SAFETECH ELECTROMECHANIC TRADING & CONTRACTING CO.

## THE REQUEST:

One of Lusail's residential complexes, named after Beverly Hills, is an area covering 115,066 square metres. The project envisages the construction of 114 villas, 20 multi-storey buildings, a clubhouse, a nursery building, a guardroom and a swimming pool.

A total of 192 pumps have been installed for the full supply of pressurised water, drainage and disposal of waste water for the entire village.
